

# FRANCESCO MERLETTI

Broadcast media management, Data analysis & visualization  
Full-stack web development, Javascript, Angular, Node, D3.js

## CONTACTS

- ✉ me@fm.to.it
- ☎ //fm.to.it/phone
- 📠 //fm.to.it
- 🌐 //fm.to.it/li
- 📧 //fm.to.it/gh
- 📧 //fm.to.it/tw
- 📧 francesco.merletti

## SKILLS

### Broadcasting & Archives

- EVS IP Director
- Avid
- Quantel/SAM
- Formats&codecs

### Data management

- Data analysis
- Data viz
- Excel
- XML,XSLT,JSON
- MySQL & SQL
- Mongo DB

### Programming

- Javascript
- VBA
- PHP
- API integration
- Frontend Development
- HTML5/CSS3
- Angular js
- D3 js
- jQuery

### Backend Development

- Node.js
- MEAN stack
- Drupal
- API design

### General

- Design
- Proj. mgmt
- Training

## LANGUAGES

- English
- Italian

## REFERENCES

- 👤 Annamaria Genero (OBS)
- 👤 Andrew Quinn (GlobalTV/NEP)
- 👤 Steve Dempsey (BIS)

## EDUCATION

- 🎓 (2010-...) University of Borås (MA) Digital Library and Information Services
- 🎓 (2005-2009) University of Torino, Italy - MultiDAMS (BA) Multimedia, art, music and drama

## LOCATION

- 📍 Based in London, UK

## PRESENTATION

I'm a digital tinkerer. I mix programming, design, engineering and data management.

On one side of my career I've worked as a media librarian managing audiovisual content and meta-data in the broadcast of large multi-sport events like the Olympics. On the other I've been involved with building websites since being given a modem and a phone line.

I've designed and implemented solutions on both sides of my career. On one end I've worked with vendors and managed the delivery of audio-visual content in TV and video on demand worlds. On the other I've built websites, web-apps, APIs, data-visualizations and dashboards.

## WORK EXPERIENCE
